

WAUWATOSA PEDESTRIAN BRIDGE

With school starting next week, parents and students should be aware that the Wisconsin Department of Transportation continues work to reconstruct the Wauwatosa Pedestrian Bridge adjacent to Wauwatosa West High School and Whitman Middle School. Over the summer months, crews demolished the existing pedestrian bridge, completed clearing and grubbing, grading, pile driving, sidewalk restoration, and pier footing work to prepare the area for the new pedestrian bridge. In the coming months, the bridge structure will start taking shape as crews begin to place girders, complete concrete deck pours, and install numerous other key elements, such as: MSE walls, lighting, decorative fencing and restoration. Reconstruction of a portion of Whitman Middle School parking lot will also take place.

During the remainder of construction, pedestrians should utilize Center Street to cross US 45. The pedestrian bridge is slated for completion at the end of 2015.

WHAT TO EXPECT DURING CONSTRUCTION

Be assured that we will continue to work hard to minimize the impact of these events, but, if you have a concern, please do not hesitate to contact us. The project team appreciates your patience during this period of construction in your area. ****All work is weather dependent and subject to change.***
